

May Update

**Join or renew by May 31 to help us raise
\$500,000 for local nonprofits!**

Sowing Seeds of Hope One Membership at a Time

There are currently **382 memberships** represented here on our 2021 Membership heart. Would you replace one of the **118 remaining green hearts** with a Spring flower to represent your 2021 membership and meet our goal of 500? The deadline is May 31!

Your membership will make a profound impact on San Antonio's nonprofit community and the people who rely on it for support. Each person who joins or renews brings us one step closer to awarding five \$100,000 High Impact Grants – one in each of our focus areas of Arts & Culture; Education; Environment, Recreation & Preservation; Family; and Health & Wellness. These grants change lives, and they are only possible through the continued commitment of members like you.

President's Message: Transforming Caring into Action

The women of Impact San Antonio, who care so deeply about making lives better in our community, are acting on that emotion in a big way to make a difference.

At our Spring Fling event on May 10, we heard from all but one of the women who have led our organization as president over the past 17 years. They shared heartfelt stories of what Impact SA has meant to them and to the nonprofits we have funded. Some were clearly moved as they told their stories — a tribute to how they feel about the way Impact SA lifts up those who need our help.

Agency update: Musical Sprouts

Like many other nonprofit agencies, Musical Bridges Around the World had to pivot when the pandemic hit in spring 2020.

Its educational outreach program, Musical Sprouts, received a High Impact Grant from Impact San Antonio in October 2019 to expand into 10 Title 1 elementary schools in disadvantaged areas of San Antonio. The idea behind Musical Sprouts is to provide courses of study on three countries and their cultures during each school year to show kids what a big world is out there. And along the way, what they learn is applied to a variety of subjects they are studying in STEAM classes — science, technology, engineering, arts and math.
